Thanks Jamie.

Further to that. All of the Hendon reports were submitted to DC Bell for the Intelligence Briefings that were provided on a daily basis.

- OPS members in attendance have been myself (prior to the MIC role), Inspector Bryden and SIS members
- Yes, it is integrated into our model
- The briefing notes from Feb 5th to 9th were supplied to DC Bell

Thanks,

Mark

Hi Kevin: Hope you are getting some rest . I am aware of project Hendon. It is a Provincial project of summary of intelligence across the province and national partners in regards to the Convoy. I have not received any updates in the few days I have been assigned Intelligence as it related to this occupation but will make sure to forward every one to the Chief and through this email will ensure Insp. Bryden sends directly from source and not through the COC that may delay sharing.

I personally have not received most of them. I started to receive them in November from Robert Drummond and I note the Chief is on the mailing list. I have a gap through the month of December and January as I am not directly in Intel but started to receive a few from Mark in Feb. I will forward those now. I asked Ken Bryden to have all reports forwarded to you dating from the first one.

Jamie

Hi Jamie,

There is apparently an Operation HENDON being run by OPP or RCMP.

This is an intelligence-based operation that has apparently been producing daily briefings since the end of January.

A couple of questions from the Chief:

- Are you aware of this operation?
- Do we have an OPS representative?
- Is it integrated into our ICS model?
- Do we have copies of all briefing notes, especially from 5 and 9 Feb?

The Chief would like a copy of all briefing notes (past and going forward) sent to him and Christiane Huneault.

Thank you,

Kevin
